PANEL STYLES

Our panelled doors are offered with flat, glazed or raised and fielded panels.

32

PANEL STYLES

FLAT (FP)

The quintessential panel style, in vogue since antiquity.

OBSCURED GLAZING (OGL)

Obscured, glazed panel to allow the transfer of light, while maintaining a degree of privacy. If desired, doors can be an amalgam of glazed & unglazed panels.

RAISED & FIELDED 2 (RF02)

A raised cavetto profile with a step leading to an ovolo lip over a fielded panel.

GLAZED (GL)

Glazed panel to allow the transition of light. If desired, doors can be an amalgam of glazed & unglazed panels.

RAISED & FIELDED 1 (RF01)

A raised cavetto profile with an ovolo lip over a fielded panel.

RAISED & FIELDED 3 (RF03)

A simple, elegant cavetto profile.

PANEL STYLES Blenheim1ADG fnished in semi-matt 'Stout' lacquer paint, in a private residence in Virginia Water, Surrey.

FACINGS & FINISHES

We offer a full range of decorative facings and finishes to complement the style of the door.

44

FACINGS & FINISHES

WOOD VENEER

WOOD VENEER

Real wood veneers offer sustainability, durability, and a natural aesthetic.

Benefits

- Natural aesthetic
- Range of colours and grains
- Available with 'Hygienilac' lacquer
- Crown or quarter cut

SAMPLE SERVICE

Due to the nature of wood, photography may vary and be inaccurate in depicting the uniqueness of veneer and stained veneer. We are happy to provide our customers with samples of our veneers and stained veneers.

FULL RANGE

We are constantly developing new stains and can only represent a small sample of our capabilities in this brochure. We can also offer pre-dyed veneer. If you require more information contact our sales team who will be able to talk you through additional options.

MATCHING SERVICE

We appreciate that you may have a specific veneer or stained veneer in mind for your doors, perhaps on a piece of furniture. If you can supply us with a sample we may be able to match it for you. We have successfully done this on many occasions, ensuring our customers achieve the finish they desire.

Profile Matching Service

If you already have a specific architrave or skirting board profile we offer profile matching service. This is especially beneficial if you wish to match the finish of your door or frame to the skirting board and/or architrave.

How it works

Provide us with a physical sample, or drawing and we will match it for you.

For more information contact our sales department.

IRONMONGERY

SERVICE

The interface between a door and it's ironmongery should be considered in the early design stages as it can affect the manufacture of the doors.

We are able to offer a full ironmongery service through one of our ironmongery partners. To complement your choice of door, our specialist ironmongers will advise you on the most suitable options and components.

However, if you have already selected your own ironmongery, we are happy to work with you and your design team to ensure that the ironmongery is factory machined to accommodate your choice.

HINGES

We offer a a range of hinge styles including concealed and "lift-off" options.
We recommend hinges be supplied through Ahmarra, to ensure that doors are mortised and hung in their frames in our production facility to avoid on-site issues.

LOCKCASES

We offer our standard lock casing to accommodate your choice of handle.

We recommend that Ahmarra lockcases are selected for all doors as this enables doors to be mortised in our factory to avoid issues on-site.

Artisan doors have been developed so that door furniture is lined up symmetrically across the whole project.

FURNITURE

We are able to provide extensive hardware options and our sales team are experienced in guiding clients in selecting the most suitable option. Please contact Ahmarra for details.

advancing architectural ironmongery gai affiliate

SPECIFICATION

All Artisan panel doors are manufactured individually to order, allowing complete design freedom. We work with developers, interior designers and architects to help clients achieve their desired look and build the correct specification for the project.

64

SPECIFICATION

SERVICE

With Artisan, no two designs are the same, a range of finishes can be applied and a variety of design options are available. Our experienced team will guide you through the process to ensure that you achieve the exact look that you desire, individually tailoring the doors to complement the interior design scheme.

1. DOOR TYPE

We offer a range of door types to suit all residences from elegant country mansions to contemporary luxury apartments, helping you to achieve the perfect look.

2. PANEL STYLES

Our panelled doors are classified into flat, glazed or raised and fielded panels.

3.MOULDING PROFILES

Mouldings frame the panels visually and structurally holding the panel or glazing in place. We offer a range of profiles both ornate and minimal.

4. FACINGS & FINISHES

A full range of decorative facings and finishes to complement the style of the door. Please contact Ahmarra for more information.

5. ADDITIONAL COMPONENTS

We also offer a range of extra components to complement the doors, including skirting boards, architraves and ironmongery.

6. SPECIFICATION

In order to manufacture doors we require the dimensions of their receiving structural openings. Ideally these will come from an architect. Where an architect is not available a site survey should be carried out.

PROFILE MATCHING SERVICE

If you already have a specific architrave or skirting board profile we offer a profile matching service. This is especially beneficial if you wish to match the finish of the door or frame to the skirting board and/ or architrave.

How it works:

Provide us with a physical sample, or drawing and we will match it for you.

COLOUR MATCHING SERVICE

If you require the doors in a specific colour, perhaps to match other elements of an interior design scheme, then we offer a colour matching service.

How it works:

Provide us with a RAL or similar colour reference, and we will match the colour for you.

VENEER/ STAIN MATCHING SERVICE

We appreciate that you may have a specific veneer or stained veneer in mind for the doors, perhaps to match a piece of furniture. If you can supply us with a sample we may be able to match it for you. We have successfully done this on many occasions, ensuring our customers achieve the finish they desire.

DIGITAL RENDERING SERVICE

If you wish to see what the doors would look like we can generate digital renders of your design.

3D PRINTING SERVICE

If you require prototypes of moulding profiles we can provide you with 3D printed samples.

CLIENT FOCUSED APPROACH

We remain focused on providing excellent customer service from inception to completion of a project.

We do this through our tried and trusted manufacturing and project management team, who implement first rate procedures ensuring projects are delivered on time and to the clients' expectations.

We build long term relationships with our clients because we take the time to understand their needs and we treat every job as our passport to future business.
